

APPENDIX:

The Appendix includes the following item(s):

- ☒ - a new or amended Abstract of the Disclosure
- ☐ - a Replacement Sheet for Figure of the drawings
- ☐ - a Substitute Specification and a marked-up copy of the originally-filed specification
- ☐ - a terminal disclaimer
- ☐ - a 37 CFR 1.132 Declaration
- ☐ - a verified English translation of foreign priority document

ABSTRACT OF THE DISCLOSURE

A measuring device (1) is used to determine three-dimensional object data. The measuring device includes at least two cameras (6) in addition to a projector (3), the cameras capturing object images which are different from the object (2). The object images can be processed in a data processing unit (7) according to the structured light attachment and according to the stereo viewing principle. As a result, reliability of the obtained data is significantly increased.
